ABOUT ME

I'm an enthusiast, fast learner and ambitious person, and always developing my skills, I treasure team-work as I've worked in various fields occupying different roles, which gave me good experience that ranges from customer service to management roles.

I've got my graphic design skills through long self-learning process alongside my academic study which didn't affect my skills, although it was in totally different field.
Following the same path of self-learning, I'm currently working on enhancing my Web Development skills, I aspire to become a Full-stack web developer in the near future, and my Graphic Design skills & knowledge is definitely a bonus in this field.
